

THE EUROLAB COOK BOOKS

EUROLAB has produced a number of 'Cook Books' on laboratory operations and procedures. The EUROLAB Cook Books are short documents on quality issues to help laboratories comply with the requirements of the ISO/IEC 17025 standard. They offer straightforward guidance and are based on experience and extensive discussions within the EUROLAB Technical Committee on Quality Assurance (TCQA).

The Cook Books cover various areas, such as:

- Management responsibility;
- Measurement, analysis, improvement;
- Resource management;
- Service realisation.

All the Cook Books are available on the EUROLAB website:
